

Dear Parents and Caregivers of RtI Computer Lab students,

I hope you and your families are safe and well as we continue to adjust to our new way of doing things. Thank you to all the parents and caregivers that have been having your children use their programs while home during this difficult time.

By now you should have login information for the math or reading program your child uses in the Fricano RtI Computer Lab. If you still need the information it is available at the Starpoint website in the teacher web page section under the RtI Computer Lab. You can also find login information in my Google Classroom as well. The access code for that is 7x3ajc4. In my Google Classroom I have entered your child's name with an email invitation to enable you to email me questions or concerns you may have. My office hours are listed there along with a link to connect for video conferencing if needed. My office hours are Monday, Wednesday, and Friday 9-10am and Wednesday from 7-8pm. If that is not convenient please email me at mmahoney@starpointcsd.org and we can arrange a suitable time to connect. I am here to help if you need it.

My hope is that you continue to have your child use the program a few times a week while they're home. Remember to have them work independently if possible. If you have a child using IXL Math please see the attached sheet. Thank you again for all your patience and cooperation as we work together to make this a smooth transition while working from home. Take care and be safe.

Sincerely,

Melinda Mahoney
RtI Computer Lab Coach
