

## **Dear Parents and Caregivers of IXL Math Students,**

Your child is using IXL Math. Once they log in go to Math at the top of the IXL screen. This will take them to their level. If they get stuck or go to another screen click Learning at the left top of the screen, Math, and their grade level letter on the left side of the screen. Each grade is represented by a letter. Level B-Kindergarten, Level C-1st grade and Level D-2nd grade. Lessons are starred and listed in alphabetical order. Each lesson goes to 100. Start at the last lesson worked on and continue. I have many lessons starred. If you run out of stars just continue down in alphabetical order. If they can work a few times a week that would be great. Students may need to be reminded to use the speaker to hear the question, click or enter their answer and then the green submit button. If they get an answer wrong it will explain why. I encourage them to go over the explanation when wrong so they don't continue to struggle.

As we move along in the program I may modify what is starred to provide more practice for skills they may be having trouble with. Please know that I am here to help. Feel free to reach out during my Office Hours and or email to connect. Thank you again for your assistance while your child works from home. Stay healthy and safe!

Sincerely,

Mrs. Mahoney  
RtI Lab Coach
